METAL ROOFING AND FAÇADE SOLUTIONS FOR THE BUILDING ENVELOPE

MET-SEAM[®] MS Shingles

Manufactured by:

MET-SEAM[®]

METAL ROOFING AND FAÇADE SOLUTIONS
FOR THE BUILDING ENVELOPE

MET-SEAM[®]

MS Shingles

Ideal for facades Met-Seam[®] MS Shingle Panels allows the specifier great flexibility in choice of finishes and sizes. The MS Shingles can be used for a number of applications including; External Façades, Internal decorative finish to a wall, New Build and Refurbishment projects

Each MS Shingle is folded on all four sides with two edges folded back and two edges folded forward.

The MS Shingles are ...simply by design... and are connected using secrete fix clips. Each clip and mechanical fixing is covered and hidden from view by the next consecutive Shingle, giving a complete secret fixed appearance.

- Variety of widths and lengths available
- Zinc, Copper, Aluminium, Steel and Stainless Steel
- Bespoke Shingles available
- Secret fixed stainless fixings

| aluminium | zinc | copper | steel |
